Total number of participants:	170	From total number of countries:	10

Description

Provide a short description of the event and its activities.

The event lasted 4 days including 2 days of travel and 2 days of project activities.

The activities were structured into 4 sessions:

1. Thematic Talks
2. Thematic Workshop
3. Roundtable Meetings
4. Project Podcast

The fifth transnational meeting of the NEXT project, entitled "**CLIMATE CHANGE: young generations for a sustainable future**", took place in the town of Lousada, Portugal, on February 24-26, 2025. This meeting brought together young leaders, experts and partners from various European countries to delve into the complexities and opportunities associated with climate change.

Over two days of activities, the meeting provided a comprehensive platform for debates, interactive workshops and cultural engagements. Participants exchanged ideas on promoting sustainable societies and addressed the challenges posed by biodiversity.

The structure, the topic discussed and the outcome of each activity are described in the Thematic Report.

Moreover, a Coordination Meeting with all project referents took place during the second day of activity, in parallel with the roundtable meetings restricted to young people. The Coordination Meeting agenda is attached for more details.

Finally, the event also included a guided tour of the Romanesque Interpretation Center, and moments of conviviality such as lunches and dinners which allowed the partners to get to know each other better and exchange ideas and suggestions on the project.
